REVISION DATE: 2003, 2008

CURRICULUM CHANGES

Requested curriculum changes must be submitted by the faculty to the curriculum committee to the appropriate College-wide Associate Dean. The appropriate Collegewide Associate Dean will determine if the recommendation should be forwarded to the Dean of Instruction and Student Services, the President's Cabinet, or other outside agencies. The curriculum chairperson and/or a faculty member from the program may be invited to come before the President's Cabinet to present rationale and justification for the requested change. The request may be approved, disapproved, or tabled for additional study. If approved, the President will submit the change to the appropriate outside agencies (if required) or implement the change.
