

2008 PLANNING SUMMIT II
Evaluation Results
April 29, 2008

Indicate your overall level of satisfaction with each item listed below:					
	Strongly Agree	Agree	No Opinion/ Undecided	Disagree	Strongly Disagree
The objectives of Planning Summit II were clear.	9	8			
The content was appropriate and understandable.	10	6			
I learned new skills or acquired knowledge in this session.	7	7	3		
The knowledge and skills gained concerning planning will help me perform my duties more effectively.	6	9	1		
The information provided was useful.	8	8			
The Planning Summit was of overall high quality.	8	9			

Your thoughts are important to us. Please respond to the following questions:

1. What would you change about Planning Summit II, if anything?
 - Not all functional areas presented.
 - With functional areas presenting, there was a lot of repeated information (waste of time)
 - I wish the President's Cabinet has been present for all presentations.
 - Great day!
 - Either let only campus associate deans present or all functional areas present.
 - There were some different priorities among functional areas – it would help if there was better coordination prior to the summit! Not many institutions conduct such intense planning – Bevill is doing good!

2. What additional comments about Planning Summit II would you like to share?
 - I'm now aware of needs on all campuses
 - Why did athletics not present? Libraries are part of instruction. Why did the libraries receive 30 minutes to present when student services, instruction, and distance education were grouped into one presentation? Why did VP Ellard not present Maintenance/Security needs? If all functional areas are present then all should present. Make sure that when people have questions about the budget after today's meeting, that everyone gets answers. E-mail everyone with Q & A as we

go along. How is today different than budget hearings? Did we not give everyone our rationale today? Why are we presenting a rationale again?

- Very enlightening day – Good Presentations! I think we have a better understanding of the needs of the College. I do wish we would consider repairing and renovating our current facilities rather than building a new facility.
